For many, mornings will be the program of choice, but afternoons have their benefits too. You have the option of 3, 4 or 5 afternoons per week, smaller class sizes (usually between 8 & 12 in each class), no early morning rush out the door or your child may no longer be napping in September....

Morning 9:00 – 11:30 Afternoon 1:00 – 3:30
Full Day 9:00 – 3:30 *(lunch program included)*

Our Junior and Senior Kindergarten program includes carefully planned and facilitated activities covering Math, Language, French, the Arts, Science and Technology as well as Physical, Social and Personal development and all with an approximately 1:8 teacher student ratio. As well, specialists join us each week to further enhance learning opportunities. Our Kindergarten graduates leave us well prepared for the challenges of their school years ahead.
